# A global network of customer support

# ONYX Go subscriptions

# What is ONYX Go?

- A new ONYX RIP subscription product
- Offered as a month-to-month, no-contract option
- Available in two tiers: ONYX Go Lite and ONYX Go Plus
- Provides double the power, with two RIPs per printer

# Who chooses a subscription RIP software?

- Print shops who always want the latest features to meet their print buyer needs
- Print shops who want control over their RIP solution without a contract
- Existing ONYX users who want a fast, easy, cost-effective way to upgrade to the latest version

# ONYX Go subscription product tiers

	Configurations				Printer Levels				Option Packages		
	Monthly Price	RIPs	Printers	Job Editors	Level 1 Printer Set	Level 2 Printer Set	Level 3 Printer Set	Misc.	Color Management Package	Production Tools Package	Textile Tools Package

# ONYX Go Lite

# ONYX Go Lite

ONYX Go Lite is a month-to-month, no contract industry leading ONYX RIP software solution. Best suited for new market entrants with their first print purchase.

## It includes:

- Two Adobe PDF Print Engine RIPs for multiple file-handling
- One Job Editor to edit and prepare files before printing
- One printer permission from level-one printers
- Unlimited roll-to-roll cutter support

# ONYX Go Plus

# ONYX Go Plus

ONYX Go Plus is a month-to-month no contract subscription of industry leading ONYX RIP software offering double the power of ONYX Go Lite. Best suited for print shops with more than one printer who want greater control over output.

It includes:

- Four Adobe PDF Print Engine RIPs for processing multiple files
- Job Editor to edit and prepare files before printing
- Two printer permissions from level one or two printers
- Unlimited roll-to-roll cutter support
- Production tools
- Color management tools

# ONYX Go Plus additional tools

ONYX Go Plus provides additional production and color management tools for greater control over print production and color output.

## Production tools:

- Bleed and Grommets for finishing
- Swatch Books for color matching
- Specialty ink support for white-ink jobs
- Custom ink configurations

## Color Management tools:

- ICC profiling for output accuracy
- Media Manager to customize profiles
- DeviceLink+ to synchronize color across devices

# ONYX Go side by side comparison

- ONYX Go includes all the industry leading features ONYX users have come to expect to achieve superior output quality
- Add-on options have been specifically designed for ONYX Go

# Printers and Cutters

# ONYX Printer and cutter support

- ONYX Go provides support for level one and level two printers which can be easily accessed through the ONYX Webstore
- ONYX Go provides unlimited roll-to-roll cutter support. A list of supported cutters can be found through the ONYX Webstore

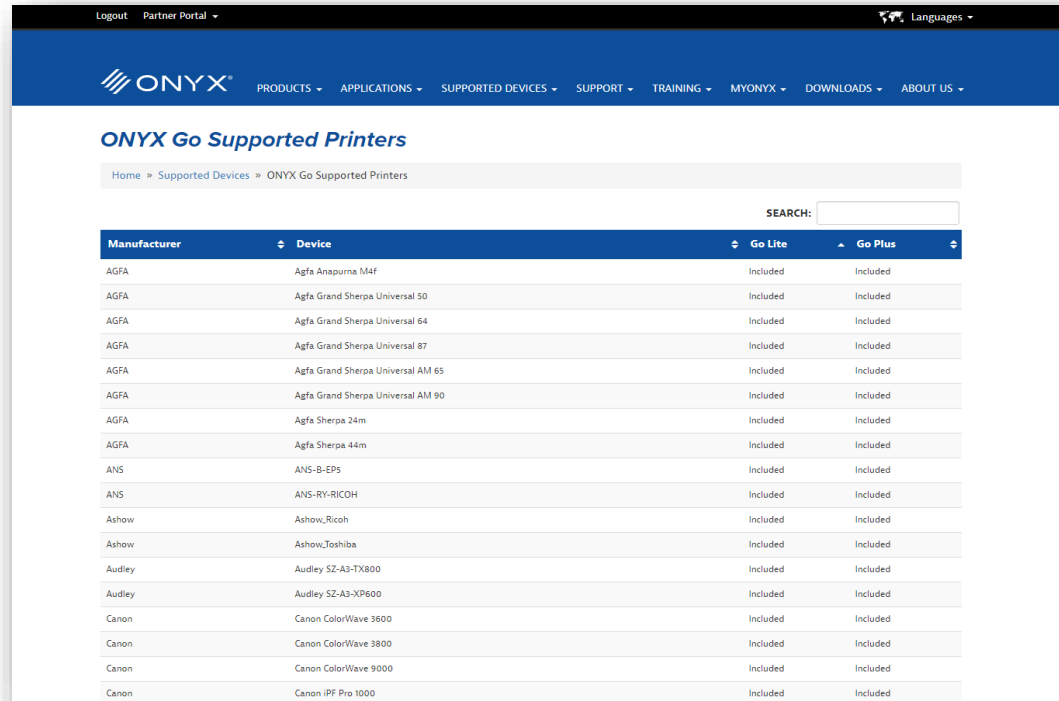

# ONYX Printer levels for ONYX Go

ONYX Printer levels are determined by production capability, type of print application, as well as printer size, age, technology and industry usage. As a general rule:

- Level one printers are typically smaller, entry level printers
- Level two printers are typically larger printers, with higher grade technology

Please refer to the ONYX Web Store which links to an online table of supported printers

# When to convert to ONYX Thrive

# When to consider ONYX Thrive

ONYX Go is ideally suited for small to medium sized print shops. Converting to ONYX Thrive is recommended when:

- The print shop doesn't want to manage multiple ONYX Go subscriptions
- The print shop has more than two printers, level three printers, or flat bed printers
- Wants access to a network license to move applications between print workstations
- Requires access to additional ONYX tools not included in ONYX Go such as textile tools

THANK YOU
