

STABLE WORKFLOWS.
REFINED USABILITY.
BIGGER POSSIBILITIES.

> WHAT'S ONYX 25.5?

ONYX 25.5 is the newest version of our industry-leading RIP software. Designed with input from print professionals around the world, it delivers smarter tools, deeper integrations, and refined usability to help you thrive in today's fast-paced print environment.

Whether you're optimizing workflows, improving color accuracy, or expanding device support, **ONYX 25.5** is built to elevate your print production.

> **NEW** KEY FEATURES

Layout Tool Upgrades

- White ink and specialty ink generation workflow
- Advanced Spot Layer Options for masking, knockout, and custom threshold curves
- Media color preview for accurate design visualization

Smarter Color Matching

- Onyx Smart Sport Search evaluates all possible ink combinations for improved color matching
- Spectral Color Matching, leveraging Hybrid ICC Profiles, for color accuracy across multiple light sources.
- Per-job spot-color rendering intent control.

Performance & Stability Improvements

- Improved reliability for high-volume production environments
- Enhanced device compatibility and connectivity
- Faster, more dependable workflow performance

> WHY UPGRADE?

Designed with extensive performance and stability enhancements to deliver a more dependable and consistent RIP experience.

Expanded Profiling Capabilities

- CMYKORGB (or equivalent 8-channel) ink configuration support for extended gamut printing
- Hybrid ICC/iccMAX v4 profiling for Spectral color mapping
- G7 Status Viewer to track the iteration process

Adobe APPE Print Engine 7.1

- Improved color, fidelity and stability
- Extended color spaces in transparency blending to support transparent elements on extended gamut printers.
- Added stability and compatibility with the latest PDF files from Adobe applications.

Cutting & Finishing Enhancements

- Custom cutter and registration mark colors (Layout Tool)
- Cut path Offset (Spread) and Cut Bleed Width controls
- Improved cut path handling for specialty workflows

Fast, Easy, Profitable
